

**DAWN BUCKINGHAM**  
STATE SENATOR

## **Statement on Senate Bill 63 (Nelson) - Joint Author**

As a physician, I understand the responsibility our state has to help provide mental health services to Texans in need, especially young Texans. That is why I am a joint author of Senate Bill 63 by Senator Jane Nelson, which would create the Texas Mental Health Care Consortium.

By connecting mental health experts from our institutions of higher learning with pediatricians who serve at-risk youth, we can impact the lives of many Texans for years to come.
